Mr. Ellett, as a member of the com-mittee from Monroe Ward, tendered his resignation. He said he was already a member of the State Committee, and besides, was serving in three differen capacities in the Democratic party, and his duties in these were very onerous and interfered seriously with his basi-

The sentiment of Democracy was built upon the rocks, and the winds of opposition could not affect it. He asked if there was any Reformer present, and to him he thought he would make it clear that there could be no such thing as a third party preserving an independent position for any time. It was an impossibility, because there would be only two sides to every question, and between an assent and dissent there would be no possible middle point. His defence of the Democratic party and the arraignment of the printion not having been made, the Republicans was worthy of his reputa-

It is probable, however, that the committee will formulate its report in time to present it to the Council at the regular meeting Friday night. In its report, when presented, the committee will give an estimate of what amount will need to be approprinted to build two school-houses in accordance with Mr. Higham's plans; will recommend what sites be chosen, and will give whatever other informa-tion they may think will be of benefit to the Council. This committee at its last meeting, as stated in the Dispatch. of the next day, decided to recommend that the building for white scholars be located on the lot owned by the city, at the corner of Tenth and Decatu streets.
